亲爱的先生，女士：

请麻烦您能耐心的解决我的问题，谢谢！

我是一名心脏病患者，为了防止心律失常这样危及生命的事情发生，我一直使用自动植入式除颤器或者ICD这种类型的起搏器，但是**ICD手**动扫描使用的控制端口很可能有的时候中断或者关闭我的心律除颤器，这对我来说十分的困难，可能是因为里面识别卡的原因，因此，我希望您能够帮助我人工操作或者帮我找到问题所在。

麻烦了！

谢谢您的合作！！

Dear Madam / Sir,

Please will you be so kind as to read this.

I have a heart condition. To prevent life-threatening rhythmical disturbances of my heart an Automatic Implantable Cardioverter Defibrillator or ICD (a kind of pacemaker) has been implanted in my body. Please see my ICD Identification Card.

Passing through the security gate or using a hand magnet could cause my defibrillator to malfunction or be switched off. Therefore I ask you kindly to search me by hand.

I thank you very much.
